Tutoriel installation Node.JS

Node.JS est un serveur web écrit en JavaScript et sert de base à de nombreux logiciels.

Télécharger https://iutdijon.u-bourgogne.fr/intra/iq/softs/files/nodejs.zip

Ouvrir l'archive et exécuter l'installateur contenu.

Gardez les options par défaut.

Custom Setup

Select the way you want features to be installed.

Ne pas installer les « tools for native modules » qui ne serviront pas.

Tools for Native Modules

Optionally install the tools necessary to compile native modules.

Some npm modules need to be compiled from C/C++ when installing. If you want to be able to install such modules, some tools (Python and Visual Studio Build Tools) need to be installed.

Automatically install the necessary tools. Note that this will also install Chocolatey. The script will pop-up in a new window after the installation completes.

Alternatively, follow the instructions at https://qithub.com/nodejs/node-qyp#on-windows to install the dependencies yourself.

Finaliser l'installation.
